

THE IDEAL LABORATORY

WE PROVIDE A FULL SUITE OF SERVICES

Centek Laboratories' investment in superior instrumentation, advanced technology and it's professional team provides unbeatable service using EPA, NIOSH, and OSHA methods for compliance.

Centek Laboratories analyzes samples from a variety of sources including:

LEED®

- Soil Vapor Intrusion
- Industrial Hygiene
- Indoor Air Quality
- Product Off-Gassing
- Headspace VOC's
- and Environmental Screening

LEED® INDOOR
AIR QUALITY

THE IDEAL LABORATORY

Centek Laboratories, has the capability to fulfil Indoor Air Quality (**IAQ**) credit/s for your team's next LEED® project. Centek can meet your analytical needs for maintaining and documenting your **IAQ**. Centek employs LEED® Accredited Professionals with a wealth of experience to satisfy LEED® **IAQ** Credits. Whether it's sampling, Analysis or consulting, Centek has the experience and capabilities to assist your needs.

SUPERIOR EQUIPMENT & TECHNOLOGY

We are able to analyze total VOC's, 4-PCH, Formaldehyde and carbon Monoxide using state-of-the-art GC and cryo-focusing using GC/MS Technology. All compounds of concern can be achieved using the same canister. Handheld PM-10 (available upon request) measure particulate. Our technology allows for prompt TAT's, along with accurate, quicker positive confirmation.

SAVING VALUABLE TIME & MONEY

The 1 (L) summa replaces tubes, pumps, badges and other media used in the past. Using a vacuum canister and a quick connect regulator, we offer a no tool/no power sampling system at no extra cost. Our equipment is so easy to use, through simple instruction or reference to videos on our website, our clients actually preform the sampling event.

SIMPLE & COST EFFECTIVE

Our LEED® Air Sampling Program has been designed and developed by chemists and project managers working in a commercial analytical laboratory specializing in Air Matrix Analysis with fast, efficient, accurate LEED® compliant and immediate results being key.

We also specialize in LEED® Product Testing, Biogas Matrix Analysis, Soil Vapor Intrusion, Industrial Hygiene, Indoor Air Quality and environmental Testing.

WHAT WE DO

SPECIALIZATION

Centek is an AIR-only Laboratory. We possess experience, dedication to client services and readiness in house and in the field to assist you with any questions or concerns involved with your project.

SERVICE

Our standard turn-around-time is 5 days. The TAT has lost reliability with most other laboratories. Our TAT is legitimate! You have our word on it! (Rush TAT also available)

ACCESSIBILITY

Our equipment and expertise is readily available 24/7. As an example of our client services, we have an emergency number that is answered around the clock.
